Outcomes from the Third Global Minor Use Summit, and considerations for JMPR

Lunchtime side event - 12:15-14:15 - Monday April 9th, 2018

A "minor use" of a pesticide refers to uses of herbicides, fungicides, or insecticides for use on low-acreage, high-value crops, or where pest control is only needed on a small portion of a farm's overall land. To address these needs, On October 1, 2017, more than 200 experts from 35 countries gathered in Montreal, Québec Canada for a four-day event – the *Third Global Minor Use Summit*. This Side event will share some of the outcomes from that meeting and a going forward plan.

Proposed Agenda

Item	Presenter
Welcome and overview of side event	Dan Kunkel, US IR-4 Minor Use Project, moderator
	(confirmed)
Summary of GMUS3 and GMUS3 Going Forward Plan	Marcos Alvarez, Ag and Ag Food Canada, Pest Management Centre (confirmed)
Specific areas from GMUS3 to carry forward relating to JMPR/CCPR	l .
Publish an international list of substances exempt from MRLs. Extremely low or of no toxicological concern/Biopesticides (ref JECFA, CCPF guidelines) Brief note of Chilean proposal?	Edwardo Aylwin , Agencia Chilena para la Inocuidad y Calidad Alimentaria, Chile (confirmed)
Promote global adoption of common procedures to establish MRLs	Dan Kunkel (confirmed)
Crop grouping – As Codex Update concludes, promotion to other regulatory bodies	Bill Barney (confirmed), CCPR eWG Chair, Update on Food and Feeds (confirmed)
Mechanisms to have access to a Global MRL Database, consideration Moderator, Nathalie Doré, Senior Trade Policy Analyst, Technical Trade Policy Analyst, Techn	•
